FEATURES

- Hydrema 707G Dump Truck
- Fitted with extra wide (700mm) tyres for ultra low ground pressure
- Articulated chassis with oscillation of 12 degrees
- 3.5m³ high tensile steel tray body with 7 tonne carrying capacity
- Constant 4WD with LSD front diff and hydromechanical diff on rear
- MultiTip compact swivel tip system for dumping within a 180 degree area
- One-step entry for easy access
- Fuel efficient Cummins F3.8 Stage 5 engine
- High mobility due to center pivot steering and hydraulic stabilizers
- Superb all-round visibility from cab

TRANSMISSION TYPE

Hydrostatic

TYRE SIZE

700/40-22.5

UNDERCARRIAGE CONDITION

As new

SECOND DRIVE TYRE CONDITION

As new

COMMENTS

Offering all the benefits of a larger rear tip articulated dump truck but with the compact size of a traditional site dumper, the 707G is a down scaled version of an articulated machine but in the 7-tonne class, with record low ground pressure.
